ver certificates, \$10,000; Wheeling & Lake Erie, 3,100. Yesterday's New York stock market was of holiday proportions and the course of prices indicated a desire to even up contracts on both sides before the impending protracted holidays. Trading came to a positive halt, occasionally, and the moderate business was almost entirely for professional account. Prices moved irregularly, but an undercurrent of strength was noted. For some time past efforts to shake out long stock have, as a rule, disturbed only small holdings and covering of shorts was the basis of improvement in spots. Foreign dealers appeared indifferent as regards our stocks, but late in the day sold New York Central, Lake Shore and others of the international shares, resulting in material declines in the two last-mentioned.

The selling was induced by the reduction in the Canadian Southern dividend for the half year. Manipulation in the industrials caused more decided gains and imparted sympathetic strength to the general list. Toward the close realizations impaired the tone of the speculations. The market opened at a slight shading in prices, but firmness soon developed on purchases by the bears, which, in the case of Burlington, carried the price up an extreme 1 per cent. The anthracite coal shares were well supported on the improved outlook for the trade and the reassuring advices regarding the probable action on the 1897 dividend by the Delaware & Hudson directors. The stock rose 2% and New Jersey Central 14 per cent., Susquehanna & Western preferred fell 2 per cent., but recovered half of the decline. The afternoon speculation was characterized by intervals or semi-stagnation and the fluctuations were without importance until near 2 o'clock,

There was no news to account for the movement in the stock. The closing was steady, but very dull. The bond speculation was quiet and un-interesting, but prices were fairly well sustained. The sales were \$703,000. The more noteworthy gains are: Delaware & Lackawanna sevens, 3 per cent.; Delaware & Hudson, Pennsylvania division. 1%, and New York Central debenture fours, Ontario & Western refunding fours and Western Union collateral trust fives, 1 per cent.

LOCAL GRAIN AND PRODUCE. Another Day of Satisfactory Trade.

with Prices Steady. Trade on the wholesale streets and on Commission row yesterday was quite satisfactory, but from this on during the present year very quiet times are looked for, so far as the wholesale trade is concerned. Most of the goods for the holidays have been purchased, and business men through the holidays will turn their attention to ascertaining what the profits and losses of the year have been. In but few lines has the busi-ness aggregated even as large as in 1895, which was a more unfavorable year for business than either of the ten preceding years. The whole-sale men enter another year with the belief that in the year 1897 business will show a marked improveement over 1895 or 1896. One favorable feature of the year now closing is that fewer bad debts have been made than usual. Retail merchants have been required to pay their bills more closely than for many years, and this has resulted favorably. Prices have been very low and promise to continue so for some weeks to The commission houses in the last few days have cleared out a large per cent. of their surplus holdings of fruits and vegetables. Both poultry and eggs are higher, but probably a de-cline will come after the holidays are over un-

less shipments should fall off in a marked man-The local grain market is rather quiet this week. WHEAT MARKET HIGHER

LIBERAL EXPORTS AND FOREIGN PRICES CAUSED 1C ADVANCE.

Strength in Leading Gereal Induced Firmness in Other Grain-Provisions Were Lower.

CHICAGO. Dec. 23 .- Wheat to-day ex-

hibited remarkable strength in view of the

holiday character of trading. Liberal clearances were again a big factor in the mand poor. No. 2 red spring, 6s 1014d; No. 1 le advance which took place. Foreign California, 7s. markets were also influential. Corn advanced 14c, and oats closed a shade over yesterday's price. Provisions showed some weakness and small declines took place. The opening strength of wheat was principally due to the firmness of the early cables, although the continued lightness of Northwest receipts helped in a measure. Liverpool opened at an advance of 4d per cental and another 15d advance was reported by subsequent dispatches. Berlin also reported 14 marks advance. The opening price for May was an improvement of 1/2c to %c on the closing price of the day before and that was bettered a little several times during the forenoon. The tendency, however, during that time was for the

price to settle back after each little spurt to about the point of improveement with which the market commenced. The dullthe only thing in the way of a much heavier advance than was secured during the skims, 214@3c. Eggs—Receipts, 4,159 packages; market steady. State and Pennsylvania, 21@24c; ness of speculative trade appeared to be the first hour and a half, but even this did not entirely suppress the further expression of the bullish sentiment that underlay the market. May wheat opened at 80%c to 80%c, advanced to in a short time and kept between that price and 80% for an hour and a half. It became stronger in the last half hour of the forenoon and about 12 o'clock it rose to 81%c. Minne-apolis and Duluth received 373 cars, against 377 on the corresponding day of the week before. Chicago received 28 cars. The Atfour hours ending at 5 p. m., Dec. 23, 1896, as lantic port clearances were heavy at 450,000 furnished by Theo. Stein, abstracter of titles, bu in wheat and flour together. This later corner of Market and Pennsylvania streets, Indianapolis, Suite 229, first office floor, The

rail shipment westward was in evidence regularly in the shipping business. That a heavier trade was not done was due solely to the fact that 1/2c premium over December was asked for good samples of No. 2 spring and May price or over for No. 1 Northern spring. The market was weaker during the last hour and after selling at 81%c, broke gradually to 81%c. There was nothing bearish in the news, but on the sharp advance there was a good deal of long wheat for sale and as the short interest had well covered the demand was light and weakness naturally followed. The closing price was 81%@81%c. Corn was moderately active and firmer. The market was helped materially by the

strong feeling developed in wheat and by the firm cable. Shorts were good buyers and the offerings were light. There was an easier feeling during the last hour, but prices were well maintained. May opened %c higher at 251/4c, advanced to 25%c and closed at the price asked. Outside of a covering of a few small unimportant short lines early to-day the mar-ket for oats was quiet and featureless. Prices were confined to a narrow range and ruled steady to a shade firmer in sympathy with wheat. May opened a shade higher at from 19%c to 20c, sold at 20@20%c and closed

at 19%@20c bid. Forecasts for Indianapolis and vicinity Trade in provisions was again chiefly in for the twenty-four hours ending 11 p. m. the way of changing January trades to May. BOSTON, Dec. 22,-The American Wool and Cotton Reporter will say to-morrow of the wool Excessive duliness has constituted the sole feature of the market the past week. December is always a dull month, and is perhaps more so than usual this year by feason of fact duplicate light weight orders have, in it opinion of the best judges, fallen considerably short of what might be considered a norma amount. December ought, also, it is claimed, to furnish more heavy-weight orders than have ye come forward. The trade are looking forward to the new year with hopefulness.
